SAFETY DATA SHEET
Abrasives 8x16, 1636, 1650, 2050, 30x50, 3060
Or a blend of any of the above products

Section 1 - Chemical Product and Company Identification

Product Name: Green Diamond Abrasives
Manufacturer: Green Diamond Sand Products
              PO Box D
              Riddle, OR 97469
              (541) 874-3111

Section 2 – Hazard Identification

Physical State: Solid, granular
Emergency Overview: Due to the low toxicity of this product, it is not expected to pose a risk of acute or chronic health effects of released or spilled. However, spills should be immediately cleaned by sweeping or vacuuming.

Target Organs: May cause respiratory irritation upon exposure to high airborne concentrations. May cause eye irritation if material contacts eye.

Potential Acute Health Effects
Eyes: May cause irritation to eyes
Skin: May cause irritation or abrasion
Inhalation: May cause irritation upon exposure to high airborne concentrations
Ingestion: May cause digestive irritation, but not expected to cause adverse systemic effects

Potential Chronic Health Effects
Target Organs: Not likely to cause chronic effects to any target organs or systems

Medical Conditions Potentially Aggravated by Overexposure: None expected

GHS Health Hazard Classification: N/A
GHS Physical Hazard Classification: N/A

GHS Signal Word(s): None Required
GHS Hazard Statement(s): None Required
GHS Precautionary Statement(s): None Required
GHS Pictograms: None Required

NFPA Hazard Classification:
- Health: 0
- Fire: 0
- Reactivity: 0

HMIS Hazard Classification:
- Health: 0
- Fire: 0
- Reactivity: 0
- Protection: K

Or a blend of any of the above products

Section 4 – First Aid Measures

Inhalation: Remove from exposure situation and move to fresh air. Seek medical attention if symptoms persist.

Eye Contact: Flush eyes with large amounts of water for 15 minutes. Remove contact lenses, hold eyelids open to ensure thorough flushing. Seek medical attention if eye damage is suspected.

Skin Contact: Wash or brush material off skin. If irritation occurs, seek medical attention.

Ingestion: If person is conscious, give large quantity of water and induce vomiting; however, never attempt to make an unconscious person drink or vomit. Get immediate medical attention.

Section 5 – Fire-Fighting Measures

Flammability: Non-Flammable, Non-Combustible
Flash Point: N/A
Flash Point Method: N/A
Auto-ignition Temperature: Not Established
LEL: N/A
UEL: N/A
Extinguishing Media: N/A
Products of Combustion: None
Fire-Fighting Instructions: None
Fire-Fighting Equipment: None

Section 6 – Accidental Release Measures

Spill and Leak Procedure: Clean spills with broom, vacuum cleaner, shovel or scoop. Although the toxicity of this product is extremely low, it is advisable to minimize the creation of airborne dust.

Containment: Contain spilled material in an appropriate container.

Regulatory Requirements: Dispose of waste material in accordance with federal, state and local solid waste disposal regulations and requirements.

Section 7 – Handling and Storage

Handling Precautions: Avoid generating excessive airborne dust.

Storage Requirements: No special storage requirements.

¹As amorphous silica and non-crystalline silicates
²As total dust
³As respirable dust
*Refer to federal, state and local occupational exposure limits. Some jurisdictions have published limits that are different from those listed.

Exposure Controls and Personal Protection

Engineering Controls: Provide general or local exhaust ventilation systems in order to maintain airborne concentrations below occupational exposure limits. Local exhaust ventilation should be used whenever possible to prevent the dispersal of airborne contaminants into the work area.

Respiratory Protection: Obtain professional assistance in selecting the appropriate and adequate respiratory protection. If necessary, use the appropriate MSHA/NIOSH approved respirator when engineering controls are not feasible.

Protective Clothing: Chemical protective clothing should not be required under normal circumstances when using this material.

Hygiene Practices: Never eat, drink, use tobacco products or apply cosmetics in areas where hazardous chemicals are used. Employees should wash their hands thoroughly prior to engaging in any of these activities.

Section 9 – Physical and Chemical Properties

Appearance and Odor: Grey, green granular solid
Boiling Point: N/A
Vapor Pressure (mm Hg): N/A
Vapor Density (Air = 1): N/A
Specific Gravity (Water = 1): 3.0
Melting Point: 2650 deg. F
Evaporation Rate: N/A
Water Solubility: Not soluble in water

Target Organs:

May cause respiratory irritation upon exposure to high airborne concentrations. May cause eye irritation if material contacts eye.

Potential Acute Health Effects

Eyes: May cause irritation to eyes
Skin: May cause irritation or abrasion
Inhalation: May cause irritation upon exposure to high airborne concentrations
Ingestion: May cause digestive irritation, but not expected to cause adverse systemic effects

Potential Chronic Health Effects

Target Organs: Not likely to cause chronic effects to any target organs or systems

Medical Conditions Potentially Aggravated by Overexposure: None expected

* See NIOSH for additional toxicity data.

Or a blend of any of the above products

Section 13 – Disposal Considerations

Refer to federal, state and local waste disposal rules and requirements for proper disposal method.

Section 14 – Transport Information

DOT Transportation Data (49 CFR 172.101):

This product, as produced and offered, is not listed as a Hazardous Material by the Department of Transportation in 49 CFR 172.

Section 15 – Additional Regulatory Information

This product contains the following toxic chemicals subject to the reporting requirements of section 313 of the Emergency Planning and Community Right to Know Act of 1986 (EPCRA – 40 CFR 372):

Ni (Nickel) and NiO (Nickel Oxide) 7440-02-0 <0.1%

Note: Refer to your federal, state and local environmental, safety and health regulatory agencies for specific additional regulatory requirements in your location.
